The PARQUE ECOLOGICO RIO FORMOSO has a health and safety system in place allowing us to identify and control potential risks.

BOIA CROSS (TUBING):

Tubing is considered to be an adventure activity and therefore involves risks. These risks are evaluated and controlled and the responsibility lies with both the client taking part in the activity as well as the company.

SUMMARY OF THE RISKS INVOLVED IN TUBING:

- Slipping or falling on the paths, decks, stairs and walkways during the activity.
- Sustaining injuries as a result of not following the safety instructions
- Drowning;

GENERAL RISKS OF ACTIVITIES IN A NATURAL ENVIRONMENT:

- Insect bites
- Incidents involving wild animals
- Poor weather conditions
- Falling branches and trees.
